A considerable short interest was bullt up in the market in the course of the sharp fall in prices which has occurred since last week, and buying to cover was a help to the advance. This was in evidence in the rise in Missouri, Kansas & Texas, for which stock there had been purchased apparently large options in the long market. A lively demand from that point today testified to the effect of the sudden advance in the price and emphasized it.

The strength of the markets at Minneapolis and Duluth was the chief factor in the situation. The firmness of the northwest-301/2 381/4 681/6 1211/4 ern markets was due mainly to the contin-ued falling off in receipts. Arrivals at those two points today were 250 cars, against 463 cars the corresponding day a casted still smaller receipts in the near 64% future. An advance of % to %d in the 42 price of wheat at Liverpool had a strengthening influence early in the day.
